## **Decentralization: What's working? What's not working?**

It's been just over 3 months since CID & SID were de-centralized. The MPA has received much feedback from Detectives regarding this new arrangement. In an effort to improve, the MPA is hosting a Detectives' meeting to ask affected front-line Detectives just that: What is working and what is not working? What needs to be tweaked? It is hoped your feedback provided to Command Staff will help to improve our working conditions and the service we provide.

## **MPA Detectives' Meeting:**

Thursday, Feb. 22, 2007 @ 1600 hours

Central Community Room
